"As a first timer to quad bikes, I thought that the tour would be a fairly standard petrol-head adventure for tourists, and I was incredibly wrong.

Dave and Eli were encouraging and thorough with the introduction to safety and operation of Quad bikes, which gave me confidence. I was super excited when I found out it was SO much more than a bit of a hoon on a bike... more an eco-tour of the region. Both, Eli and Dave's, Zoological, Botanical and Ecological knowledge was set in education and local knowledge, not a drab memorised/repetitive script like many other tours.

Their own excitement for the environment and the wildlife we saw was infectious. As someone that has an educational background in science, it was SO nice to get to interact with the guides by asking questions with educated responses.... then getting to cruise around on a quad bike (so fun!). Highly recommend this tour and our guides, Eli and Dave, if you want an incredible Quad biking eco-tour."

“Brilliant! First the quad biking...Easily 5 out of 5 and excellent! The fact that there is a practice track before you go out and all the equipment provided speaks volumes about safety. All three of us had the best time and just wished that we’d booked a longer tour – we will definitely be back. Now the sandboarding and tobogganing. Also 5 out of 5. None of us had ever tried this before and we were thrilled that the ten year old was a natural at sand boarding. He absolutely loved it and can’t wait to do it again! We all had a great time. We were covered in sand but we’d like to do it again next time we are on KI.”

“An unmissable experience! We were visiting Kangaroo Island for the weekend and it was definitely the best decision we made! The quad biking was amazing, we saw kangaroos and koalas as well as a variety of terrain. Our guide was friendly and kept pointing out the wildlife and stopping every so often so we could take in the views. The beach we visited was truly spectacular, one of the most incredible views we saw on the island. Sand boarding was a real laugh, and we finished the experience with a kayak up the Harriet River which was really peaceful and relaxing, a brilliant way to end a trip.”

“Seriously great fun! I went with my wife, and she enjoyed it just as much as I did. Definitely something tourists should put on their list to do. The tour offers a good mix of things to see, and an overall great time burning about on the Quads, regardless of age, gender, confidence or experience with the activity. Staff are friendly and professional, you get a basic training run-through prior to going, and then you just get up, go and have fun! I promise you will start slow, and end up burning through quickly, then it will come to an end and you’ll want more! There’s plenty to do and see on KI, but put this on your list!” Ricky & Donna, Adelaide, South Australia (TripAdvisor)
